

MODERNIZE YOUR WAREHOUSE & DC OPERATIONS TO SUCCESSFULLY NAVIGATE THE EVER-EVOLVING WORLD OF LOGISTICS

Speed, efficiency and flexibility are top of the agenda for the ongoing transformation of supply chains. Digital advancements in warehouse technologies are crucial to maintain a connected and unified view of your business' facilities. This will help you to maximize the success of this journey and benefit from the future, today, with solutions to improve safety, service, and costs.

What's holding you back?

You may be hindered by non-digital tools used to plan and execute your warehouse operations: whiteboards, paper-based pick lists and spreadsheets. These were never developed to handle today's warehousing complexities, let alone tomorrow's.

How DELMIA can help you

DELMIA, powered by the 3DEXPERIENCE® platform, lets you create a warehouse Virtual Twin Experience synchronized to your real-world activities. Together with the industry solutions integrated on the platform, you can enable detailed simulation processes, optimization and IIoT data analysis to gain better service, quality, productivity and efficiency in your warehouse and DC.

What you will be empowered to do

- Bridge the gap between the real and the virtual world with a synchronous Virtual Twin Experience
- Centrally leverage all your data and information with analytics, from a single source of truth
- Connect the dots within your warehouse and distribution operations for holistic optimization

Benefits of future-proof warehouse operations achieved by various customers:

Zero PPM
(parts per million) error rate for shipment processes at **20** sites
(global automotive supplier)

18% labor expense reduction
(technology manufacturer)

\$12M savings in **inventory management** and **supplier visibility**
(agriculture company)

99% + 50% order fulfillment and cycle time reduction
(consumer-packaged goods manufacturer)

24% reduction of **WIP and DII** (Days In Inventory) planned
(aerospace manufacturer)

3-year ROI of **112%**; breakeven in **12 months**
(electronics manufacturer)

Reduced **lead time** from **6 days to 3 days** for **99%** of products
(consumer-packaged goods manufacturer)

Increased **customer service** rate to **98%**
(consumer-packaged goods manufacturer)

Future-proof warehouse operations
(warehousing and logistics service provider)

30% inventory reduction across **16** plants
(medical device manufacturer)

Powered by Dassault Systèmes' 3DEXPERIENCE® platform, DELMIA helps industries and service providers to collaborate, model, optimize and perform their operations. Discover how you can start future-proofing your warehouse and DC operations by **downloading our eBook: The Warehouse of the Future.**
